## 👤 PROFILE

I'm a Full-Stack Web Developer working with JavaScript, React, Next.js, Redux, Node.js, Express, MongoDB, PostgreSQL. Currently building an online marketplace with those stacks. Striving the utmost efficiency by polishing problem solving & fast learning skills. I can't wait to learn more stacks and keep experimenting on new tools. You can see my portfolios on [ahmadmarzuki.com](http://ahmadmarzuki.com) and [github.com/amadzuki](https://github.com/amadzuki).

## 📁 EMPLOYMENT HISTORY

### Full-stack Developer at GMI, Jakarta

January 2021 — Present

Building an online marketplace for spare parts. Using the latest Next.js for both seller and buyer site (frontend), Node.js and Express for the backend, and PostgreSQL for database. Feel free to visit it at <https://demo-grosirparts.ahmadmarzuki.com/>

### Freelance Web Developer, Jakarta

July 2020 — January 2021

Having fun building personal projects of social media for anime & manga fan, the name's saikou. I'm developing both front-end and back-end using MERN stack and other modern techs as well. Feel free to drop by at <https://saikou.ahmadmarzuki.com>

### Private Tutor at Super Private Class, Jakarta

April 2019 — March 2020

Teach Chemistry to Junior School and High School level students as tutor. It's a semi private system where 1 tutor can teach a maximum of 4 students in one session.

### Entrepreneur, Bandung

February 2018 — January 2019

- Build an online local clothing retail.
- Build online store that selling local crafts such as batik and wooden crafts. The goods is exported and put in amazon warehouse to be sold worldwide using Amazon FBA system.
- Supervise workers at small restaurant.

### Corporate Social Responsibility at Elcorps, Jakarta

February 2017 — December 2017

Organize and Manage how CSR fund is delivered and host several events to build customer's awareness towards altruistic behavior.

### Internship at PT Timah (Persero) Tbk, Muntok, Bangka-Belitung.

December 2014 — January 2015

Analyzed Jaw Crusher Wear Problem as Material Engineer and predict the lifetime of the crusher part.

 **EDUCATION**

 **Bachelor of Material Engineering, Institut Teknologi Bandung, Bandung**  
August 2011 — November 2016

Graduated from Bandung Institute of Technology (ITB), Indonesia. Specialized in Materials Engineering with GPA of 3.02. Active in the campus as Librarian.
